

REDISCOVERING HYDE ABBEY

The 1995-99 and 2016-18 Community Digs

A-E: 1995-99 Hyde Abbey Community digs

Map of excavations showing the 1995-99 and 2016-18 trenches (yellow) together with outlines of the predicted buildings (purple). The revised plan of the cloister based on the findings of the 2016-18 digs.

2018 dig Tr 12 David Ashby
drawing stonework predating the
build of Hyde Abbey.

2016 Tr 2 Steve Taylor drawing features on the last day of the dig with Don Bryan looking on.

2018 dig Tr 8 Dr John Crook
drawing the refectory wall
foundations formed of reused
Norman cloister arch voussoirs.

2017 Tr 4 Young archaeologists in the making finding demolition materials from the abbey refectory.

1999 Team One of the community volunteers in the excavated side chapel.

The reconstructed Norman cloister arch from the foundations of the refectory building, 14 King Alfred Terrace, now in Winchester City Museum.

2016 First day first dig of the new millennium:
WARG supervisor Techer Jones briefing
volunteers on a wet first day of the dig at
14 Alswitha Terrace.
